STATE RIGHTS.—It was stated in Saturday's Gazette that the Governor of Rhode Island had presented a report of the Chief Constable to the Senate of that State relative to the official interference of a United States Marshal at the recent seizure of liquors which were under the protection of the State.

"In the collision between the officers of the State and the United States I was called upon by a member of the constabulary force and informed of an existing difficulty, and asked to interfere in the matter. It seemed to me, on an examination of the facts, that, although there was no doubt in my own mind that I might direct a portion of the military establishment of the State to sustain the State officers of law, yet prudence required that the question might better be decided by a court than by an intervention of the military.

DRUGS AND CHEMICALS. TAKE LIVER REGULATOR. The Symptoms of Liver Complaint are unsteady and pain in the side. Sometimes the pain is in the shoulder, and is mistaken for rheumatism. The stomach is affected with loss of appetite and sickness, bowels in general constive, sometimes alternating with lax. The head is troubled with pain, and dull, heavy sensation, considerable loss of memory, accompanied with partial sensation of having left undone something which ought to have been done. Often complaining of weakness, debility, and low spirits. Sometimes many of the above symptoms attend the disease, and other times very few of them; but the Liver is generally the organ most involved.

TESTIMONIALS. "I have never seen or tried such a simple, efficacious, satisfactory and pleasant remedy in my life."—H. Hainer, St. Louis, Mo.
